

# Big Kahuna Coin Catcher

*Dads always seem to have loose coins in their pockets so why not make the big guy a place to corral all that loot. We call this fun kid's craft project The Big Kahuna Coin Catcher because it's a great gift for Dad for Father's Day. Not to mention quick and easy! Find more kid crafts at: [www.Kidfunideas.com](http://www.Kidfunideas.com)*

## What you'll need:

- One empty plastic Disinfecting wipes container – clean and dry
- Download Big Kahuna picture for the cover – or your own design on paper
- Scissors
- Markers, crayons or colored pencils to decorate
- Clear plastic packing tape
- Plastic sheet protector or laminator

## How to make it:

1. Remove the label on the disinfecting wipes container. Clean and dry it.
2. Download the pattern for the front of the container.
3. Measure the paper around the container and trim it to fit just below the rim with no excess hanging below the container. (Note: not all containers are the same diameter around so you may have to adjust the paper to fit properly.)
4. Color in and decorate your picture.
5. If you have a laminator, laminate your picture. If you do not have a laminator, you can use a plastic sheet protector cut to fit your design.
6. Attach your design to the container using the plastic packing tape.
7. For the top, you can leave it as is, or have an adult cut away the excess plastic area where the wipes feed through.

Now your big Kahuna will have a great place to stash his loot for a rainy day!
